NHS Details

Dr Catherine Turner and Dr David Pattinson hold a very small NHS contract between them, meaning we do provide NHS treatment to those already registered with us under the NHS. The practice's NHS provision is regularly monitored by practice owner Catherine Turner to ensure that we are meeting our NHS requirements and to check for availability to new or current private patients. At this current time, our NHS quota is full and we have no immediately plans to increase it.

If we do not have availability to take on new NHS patients at the time of your enquiry, please contact NHS 111 or check the NHS Choices website www.nhs.uk for details of other NHS practices in the area. This service is provided by NHS England, which is responsible for commissioning dental services in this area.

Other Information

We will aim to ensure that you are cared for by your preferred dentist. Where this is not possible, we will explain the reasons. Please let our receptionists know, when you book your next appointment.

We encourage our patients to receive regular dental care to achieve and maintain good oral health. We will undertake a dental care assessment during your first appointment with one of our dentists to assess and agree your treatment needs.

Our treatment areas can be accessed by patients using wheelchairs and other walking aids.

If you do have any disability that you think we need to know about, please give us a call before your appointment and we will do our best to put suitable arrangements in place to accommodate your needs.

Missed appointments result in wasted time that could be used by other patients. We ask that if you are unable to attend your appointment, you let the practice know and give as much notice as possible and, at least 24 hours, preferably 48 hours. If you cancel an appointment, with less than 48 hours' notice, we may charge a late cancellation fee. If you are registered under the NHS with us and you cancel an appointment with less than 24 hours notice on more than one occasion, we may no longer be able to offer you NHS treatment. If you are an NHS patient and do not attend the practice for more than 2 years, your NHS place may become inactive. We will of course take any special circumstances into account. We may still be able to offer private dental care, but will require a non-refundable deposit.

Patients who are violent or abusive to practice staff, other patients or anyone else on the practice premises will be refused treatment and reported to the appropriate authorities.
